WILL CLOSE MINISTRY

Tomorrow will close the ministry of Rev. H. Kerr Taylor at the Central Presbyterian Church. The most popular pastor will conduct both services tomorrow, no doubt a large audience will be present at both services. The leaving of Rev. Taylor is very much regretted, not only by the members of the Central Church among whom he has worked so faithfully, but by the community at large.

A meeting was held in the church last evening in preparation for the communion service Sunday. At the close of the service the congregation was asked to remain and a purse of gold was presented to Mr. Taylor. Appropriate remarks were made by Mr. C. B. Holstein, who presented the purse.

Dr. and Mrs. J. A. Simpson and family have moved into the Diener property at Fifth and Limestone streets, which was recently purchased by them.

BIG SALE

Of Melvins, Knox and Diener Drawing Large Crowds, Who Are Anxious to Take Advantage of the Many Bargains Offered.

The Removal Sale of Melvins, Knox & Diener, furniture dealers, which began on Wednesday is drawing large crowds from all over this section of the country and the many bargains offered and being eagerly snapped up.

From the very beginning of the sale on Wednesday morning at 9 o'clock, it was an assured success. Everyone that purchased any article of furniture wondered how such bargains could be offered. Every article of furniture in the store has been marked down and the many attending are quick to see the bargains offered.

The big sale will continue until next Saturday, the last shopping day before Christmas. During this time the owners of the establishment are expecting to dispose of their entire stock offered and if the sale continues during the week as it has done the past three days their aim will be reached. The first day sales greatly exceeded their estimations and they are expecting that the first day sales will be eclipsed today.

MAYSVILLE LOSES

To Lexington in One of the Best Played Games Ever seen on the Local Floor—Score 32 to 22.

The basketball game in the auditorium of the High School between Maysville and a team from Lexington High School was one of the best games ever played on the local floor and was marked with clean playing. The local boys were outplayed from the very beginning, although they led the score at the end of the first half. The Lexington team, having had much more experience and using university tactics in their playing proved to be too much for the locals and they were defeated by a score of 32 to 22.

The line-up at the opening of the game was as follows:

Maysville	Lexington
Right Forward	Shanklin
Left Forward	Thomas
Centre	Bastian
Right Guard	Rodes
Left Guard	Fuller

The first half started with a foul thrown by Smoot for the locals. Shanklin of the visitors followed with a field goal. Maysville then tied when Smoot threw another foul and went ahead on a third one. Bastian then threw another field goal for the visitors. Next five points scored were by Smoot, three fouls and one field. The visitors then went ahead on three field and one foul goal. Smoot then made another field and also a foul. The half ended at this point leaving the score 12 to 11 in the locals favor.

The second half started with a total of 12 points being scored by the Lexington boys. Maysville made two on fouls thrown by Smoot, then a field for Lexington, two more fouls from Smoot and two field goals by Everett put Maysville in striking distance of the Fayette county boys. But a field goal from Bastian, a foul from Thomas, almost sealed up the game. A field goal from Wood raised local hopes again but this was cancelled by one from Bastian and a few moments later the timekeepers whistle blew for the close of the game.

Maysville certainly made a game fight for the honors of the contest but fortune did not smile on them. The game was very clean, and was certainly fast and well played.

SIX BELOW

Old King Winter has gained his throne and is regaining supremacy as was evidenced by the way the thermometer took a drop last night. The government instrument at the home of Mrs. Marsh on Forest avenue marked six degrees below zero. We didn't know it was so cold until we heard the six below and then we nearly froze. However we are all right now as we have just thought that it will only be six months until summer time.

TAKEN TO PEN

Mr. Clark Overton, one of the guards of the State Penitentiary at Frankfort, was in this city yesterday for the purpose of taking Tom Lucas to that institution. Lucas was out of the state prison on good behavior and having violated his parole he will be compelled to serve out his term. In addition to having been fined in Police Court last week he was indicted by the Grand Jury for selling liquor in local option territory.

DAMAGING FIRE

Sweeps the Home of Mr. Samuel Middleman on Limestone Street at an Early Hour This Morning.

A disastrous fire swept the home of Mr. Samuel Middleman on Limestone street this morning at 4 o'clock. The fire was a very peculiar one and originated from a defective flue.

The fire was discovered by Officer William Tolle and Mr. H. C. Pollitt. Mr. Pollitt was awakened by the smoke from the fire and leaving his home he found the fire had made a rapid headway and while Mr. Tolle turned in an alarm he awakened the family. The fire department made a rapid run and were soon busy extinguishing the blaze.

The house of Mr. Middleman is a frame and the next residence, north is brick. The fire had gained a great headway between the two houses and it was there that the most damage was done. The entire front part of the house on the north side was burned out and the firemen had a very difficult time to get to the blaze. On the second floor they were compelled to lay on the floor to the fire.

The family of Mr. Middleman had a very narrow escape from being burned, they not awaking until they heard the knocks of Mr. Pollitt and Mr. Tolle. Although the fire had almost reached the bed of one of the members of the family, he did not awaken.

The fire department did a great work in extinguishing the blaze and had it not been for their quickness in answering the alarm and in getting ready to fight the fire the damage would have been much more.

The damage to the house and to the furniture will amount to about \$2500, partially covered by insurance. The attic was entirely gutted and the north side of the house will have to be practically rebuilt.

IS ONE OF THE MOST POPULAR

Announcement has been made in the State University at Lexington, Ky., of the ten most popular girls in that institution. Miss Frances Giesel of this city has been named as one of the ten and the Lexington Herald gives the following reason:

"Frances Giesel—'Shorty' is Shorty" and, it is hoped, she will always be. Several every year have worshipped at her shrine, only to give way to better men, drawn hither by an irresistible charm.

WHY CANADA REJOICES

A special correspondent of the New York Journal of Commerce reports that Canada is exuberant over the results of the election, believing that the Underwood-Wilson law will remain in effect for four more years. He says: "As soon as the bill went into effect a lively export trade sprang up in certain lines which had previously been prohibited. Canada began to send such items as milk and cream, lambs, sheep, cattle, horses, peas, etc., in considerable volume to the American market. Also there is as yet outstanding the invitation contained in the Underwood tariff for free exchange of wheat and flour." And he might have added free fish. Canada has a right to feel pleased with election results. We imported from Canada during the first nine months of this year \$161,000,000 worth of products, compared with \$92,000,000 during the first nine months of 1913, which was the last nine months under a Republican protective tariff law. There is one thing to be said about the tariff question in the recent campaign: Permitting it to be clouded by less important issues made the answer of the people in regard to protection or free trade by no means decisive.

NEW JERSEY AND WILSON

If President Wilson has discovered anything in the election returns of New Jersey, his home State, from which to draw consolation, he hasn't said anything about it. There was probably not a state in the Union in which the man and his policies were so clearly an issue as in New Jersey, whose people have had an opportunity to study him and his actions at close range for a long period of years. They knew him as president of Princeton university, as governor of New Jersey and as President of the United States, and it is a significant fact that, almost from the first year of his administration as governor, public sentiment in his home State has been running against him. Whenever, since his election as governor, he has asked the people to support him, they have refused to do so, and the climax came last Tuesday, when they registered a plurality against him of upwards of sixty thousand.—Thenton State Gazette.

A CLINCHER

We notice that those careful who object to suddenness and like some Englishmen, never go out into the streets until they have been properly aired, are objecting to the extension of suffrage to women that all women are not "desirable" for a variety of reasons, one of which is color.

It is an argument that leaves us unmoved and unconvinced. If this were not a land where suffrage is birthright for those who are born right, we would say that quite a few have it who don't know what to do with it, and that as many may be found South of Mason and Dixon's line as North. We are actively out of sympathy with the view that the women will abuse, not use, the ballot. When that argument is heard, we find it waste of time to say anything.

We point to the schools.
That suffices.

—Louisville Herald

"TENTATIVE" RESULTS

For more than three years the Interstate Commerce Commission has been engaged in the work of placing a valuation upon the railroads of the country, in pursuance of a law enacted by Congress in 1913. More than \$7,000,000 has been spent in the work and there is an appropriation of \$3,500,000 available for the current fiscal year. The Commission has recently completed the first two valuations, covering short roads of minor importance. The reports carry the information that the valuations are merely "tentative," and that the commission has not yet passed upon the many questions involved in the determination of correct principles and methods. It would seem, therefore, that we have spent a lot of money and shall spend a lot more in work that will be of doubtful value.

WOODROW'S WOES

It looks as if President Wilson has "hard sledding" before him. The Adamson bill led the labor leaders to expect more than the president can hope to give them, and the most serious labor troubles in the history of the country seem to be impending.

The high cost of living is being met by organized movements, and bread riots are not improbable. There are threatening indications that public order in the larger cities will have to preserve by the Federal militia before the winter is over, and to all of this must be added the Mexican and European complications.

Perhaps no president in the nation's history has faced such peril—with so much of it of his own making.

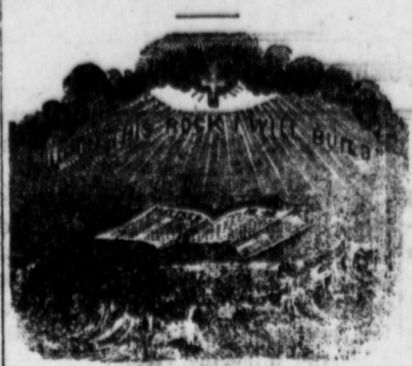

While we are accustomed to speak of this country as new its natural attractions are as old as any in the world. We are reminded of this by the recent purchase by the government of the Giant Forest in the heart of the Sequoia national park, California. By this purchase the government secures for a pleasure park a tract containing the largest and oldest trees in the world. One of them has a circumference at its base of 102 feet, a diameter of 36.5 feet and a height of 279.9 feet. These trees it is estimated were standing before Isaiah uttered his prophecy, they antedated the dawn of the Christian era by 2,000 years, and were a thousand years old when David wrote the Psalms and Solomon the Proverbs. The government has done wisely in preserving these survivors of antiquity for the admiration of the generations that may yet come and go before they reach their full growth.

The Republican factions of Chicago practically admit that the patronage question during the next state administration is the only thing that threatens to divide and defeat the party at the next election. This reminds that a great political organization can hold together fairly well on matters of principle but is subjected to a heavy strain in disposing of patronage.

Britain is taking a potato census and New York is taking an egg census. We're finding out really who's who in the world after so long a time.—N. Y. Evening Sun.

NO SYMPATHY IN RUSSIA

Petrograd, via London, December 14.—The peace proposal of the Central Powers is regarded by the Russian government as "an attempt to court public opinion and encourage the people of Germany by appearing to put the responsibility for the continuation of the war upon the Entente allies."

The proposal has been received by officials of Petrograd without an atom of sympathy.

WOULD CONNECT CHICAGO WITH NEW YORK

The Type Used in One Year to Publish Endorsements of Doan's Kidney Pills.

Of the many kidney remedies on the market today, none other is recommended like Doan's Kidney Pills. Forty thousand benefited people gladly testify in the newspapers of their own towns. Forty-five hundred American newspapers publish this home proof of Doan's merit. The type used in one year to tell this wonderful story would make a solid column of metal twice as high as the world's highest mountain. Placed end to end the lines of type would reach from New York to Chicago. These miles of good words told by 40,000 tongues sound glad tidings to any Maysville sufferer who wants relief from kidney and bladder ills. Here's a Maysville case. Don't experiment. Use the remedy endorsed by people you know.

John J. Bramel, bookkeeper, Walnut street, Maysville, says: "Doan's Kidney Pills have been of great benefit to me and in fact, I attribute fourteen years of my life to them. It was in 1902 that I was suffering a great deal. After long use of Doan's Kidney Pills, I became well and had no bad effects for many years. Recently, however, I noticed my kidneys were not acting right and my system was generally weak. I knew it was a return of the trouble and I didn't lose any time in getting a box of Doan's Kidney Pills at Chansor's Drug Store. They again gave me the same good results and I consider them a wonderful medicine."

Mr. Bramel is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mr. Bramel had—the remedy backed by home testimony. 50c all store. By Being Constantly Supplied With
Theodor's Black-Draught.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whitaker, of this place, "with sick headache, and stomach trouble."

Ten years ago a friend told me to try Theodor's Black-Draught, which I did, and I found it to be the best family medicine for young and old."

I keep Black-Draught on hand all the time now, and when my children feel a little bad, they ask me for a dose, and it does them more good than any medicine they ever tried."

We never have a long spell of sickness in our family, since we commenced using Black-Draught."

Theodor's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms."

It has been in constant use for more than 70 years, and has benefited more than a million people."

SOUTH AND WEST DUMPING MONEY INTO WALL STREET

New York, December 13—So anxious are the West and South to dump their money into the New York stock market the Western Union and the American Telephone and Telegraph Companies cannot provide enough wires to accommodate them. Hundreds of sales, it was learned today, go by the board simply because the wires cannot carry the offers.

Yesterday when Germany's peace proposals caused the greatest dumping of stocks into the exchange since the "silence panic" of 1907, the selling orders of these Western and Southern traders did not reach the floor of the exchange until late in the afternoon.

So furious is the trading on the stock exchange that the tickets supposed to keep every broker's and banker's office in even touch with quotations sometimes are eighteen minutes behind the market.

In the open windows of the curb brokerage houses, one today could see girls making the wild, mystic signals to the traders on the pavement, that never before were made by feminine fingers. The supply of brokerage employees has run short of the demand and lambs are so plentiful that a bright young man who started a magazine for their special treatment four months ago is a full blown publisher today with big circulation and advertising.

William Van Antwerp, governor of the stock exchange, agreed, explaining that people in remote sections are trading by wire in the stocks of concerns they know. Utah copper, Texas oil and Montana power stock, he said, bring orders from their respective states in large numbers.

At least a third of the stock exchange trading is straight investment, Van Antwerp declared. As for speculation, he said, the stock exchange is exerting every effort to keep the market free from manipulation and that every safeguard the governors can conceive has been thrown about the trading.

William Shearer, manager of the New York, clearing house, can testify to the prevalence of the speculation bacilli.

"Some gamblers up in New England," he protested indignantly today, are running a pool based on the clearing house figures. They offered a 'split' on the profits, \$50 or so a week—if I would slip them the figures in advance of the public announcement."

Shearer's statement at the close of last week's business showed the banks to be carrying \$73,790,840 more reserve than required by law. It showed also that the total reserve then in the bank vaults, \$347,728,000, was in actual hard money.

Oliver Hester sold a small farm here for \$200.

Charles H. Compton is now teaching on his fifth month of school.

J. S. Muse autored to Maysville last Monday on business.

J. C. Wilson has purchased the Campbell timber near here and is sawing lumber.

Mrs. Celia Hester is very low with rheumatism being unable to even leave her bed.

Prof. Gardner of Wallingford who is teaching the public school here is now teaching in his fourth month.

Mrs. Milt Guley and brother, French Brammer, of near Sharpsburg, were here last week visiting relatives.

Robert Manning and family of T. L.

let, Rowan county, moved to Ryan three miles above this place last Monday to reside.

There is less sickness in this community now than was ever known before which is not suiting our doctors very well we think.

Corn is selling at 90 cents and all the tobacco sold at 10 cents to 15 cents per pound in this territory last week to be delivered at Maysville this winter.

Oscar Jackson, the cattle man of Beechburg, was here very recently en route to Carter county, where he is buying tobacco that he will ship to Maysville markets.

We are glad to report that drunkenness among our young men and boys is very much on the decrease here of late as several have paid out fines for being drunk and disorderly. It was very common for a while here of late for us to have several drunks at any kind of gathering, and even at church which is very disgusting in the least. Here's hoping that our long liquor of all kinds will be completely banished from our otherwise fair land, never to return and until then we may expect drunkenness more or less everywhere. "Who, hath, woe, who hath sorrow, etc., they that tarry long at the wine."

THIRD SUBMARINE LINER NOW UN- DER CONSTRUCTION

Washington, December 11—A third merchant submarine for the transatlantic service now is under construction in Germany. Advances received here from Berlin say names for the vessel and her sister ship designed to replace the lost Bremen, have not yet been selected. It is said the merchant fleet, composed of the two new boats and the Deutschland, will be ready to travel on regular schedule between the United States and Germany late in the spring. In the same sources it is considered improbable that the Deutsch-

land will start on her third voyage to this country until the winter weather on the Atlantic moderates. Perfection of minor details is all that is lacking for the establishment of a submarine mail service with Germany. The owners of the submarines have offered to transport first-class letter mails and the Postoffice Department has expressed itself as being ready to make a contract. Agents of the submarine line, however, have made several suggestions regarding the service which as yet have not been adopted. Among other things the agents want to be assured that no explosives can be slipped into the mail packages.

TOBACCO MARKET

Small Sales Mark the Close of the Second Week of the Season—Supervisor's Report for the Week.

The sales for the last day of the second week of the tobacco season of 1916-17 closed yesterday with over 40,000 pounds of the weed sold. The sales for the day were very light at all of the six houses selling but the offerings were fair. The warehousemen are not expecting any large influx of tobacco over Sunday as the weather is too cold for the growers to bring their tobacco to the city. The following are the sales for the day yesterday:

Supervisor's Report

The Maysville Tobacco Market closed for the week selling a total of 442,265 pounds at an average of \$16.57. Rejections very light. The receipts have been light on account of the fact that the cold dry weather has held the handling back to a great extent. The tobacco has not been of the best quality. The late cutting and lower tiers of barns has been a large per cent of the offerings while there has been some fine small crops offered and always selling at good prices.

We think this is a good time to sell as prices are good. First sale Monday at Planters House.

W. MITCHELL, Supervisor.

GOOD REVIVAL

The revival at Stewart's Chapel M. E. Church was a success, resulting in 7 conversions and 6 accessions to the church.

This did not meet with our expectations but we hope to have laid a foundation upon which to build in the future.

Every service was largely attended and God did not fail to let the Holy Spirit do its office work.

Many people that had not attended services anywhere in some time came to these services. We are to organize a prayer meeting and a Sunday School for the good people at this place in the near future.

The pastor preaches every first and third Sunday afternoon at 2:30 p. m. each month.

We have announced a baptismal service and reception of members for Sunday afternoon. Every one is cordially invited to attend all of our services.

ANNUAL REPORT

Of the Mason County Woman Suffrage League Shows That the Organization is Very Active.

The Mason County Woman Suffrage League held bi-monthly meetings from January until June, and resumed regular meetings in October.

During the session of the General Assembly, telegrams were sent to the Chairman of Committees in the House and Senate, requesting that the Woman Suffrage Amendment bill be favorably reported. A petition was sent to the General Assembly, asking that the suffrage bill be passed.

Two delegates were sent from the Mason County League to the Congressional Convention, held in Louisville, March 27-28, 1916.

A musical was given April 29th at the home of Mr. and Mrs. George Barbour. With the profits a banner was purchased, uniform in style with other county banners.

In the spring, the Mason County Woman Suffrage League federated with the Kentucky Federation of Woman's Clubs, and took charge of arrangements for Suffrage Night, at the annual meeting of the Federation in Maysville, in May. The business men of Maysville responded to requests from the League to decorate during the Convention, with suffrage banners.

On May 10th, essays on "Woman Suffrage" were submitted by representatives of the High Schools of Mason county, and a prize of five dollars was given for the best essay.

On May 20th, through the generosity of the Kentucky Equal Rights Association, Mr. Walter J. Millard addressed two street meetings in Maysville. The number of hearers at both meetings was large, and the order and attention excellent. Mr. Millard spoke, also, to a most appreciative audience in the auditorium of the Mayslick High School, where twenty-one membership cards were signed.

On May 20th, a committee of seventeen from the Suffrage League went before the Democratic County Convention, and asked that the delegates from Mason County to the State Democratic Convention use their influence for a Suffrage Plank in the State and National platforms. When, at last, the opportunity was accorded, the presentation of the cause was courteously received.

Acting under instructions from the State Campaign Committee, the League sent letters to the delegates to the Ninth Congressional District, to the National Republican and the National Democratic Conventions, urging them to support a Suffrage Plank in their National platforms.

Under the auspices of the Kentucky Equal Rights Association, Mrs. Henry S. Jaffray, of Chicago, spoke twice in June, in Maysville. Good for the cause was accomplished. In the same month, a regular meeting of the League, to which visitors were invited, was addressed by Miss Junc Pelham, of Los Angeles, a native of Mason county. Miss Pelham was most inspiring, the key note of her message being, that in the Woman's Civic League of Los Angeles, preparation for better citizenship furnishes a bond and a common interest between professional women, salaried women, and wage-earning women—that in California the ballot makes for greater democracy among women.

On October 27th, the League met for the annual election of officers.

The growth of suffrage sentiment in the county, as a result of the logic of events, is gratifying. The Representative from Mason county in the General Assembly of 1916 supported the Suffrage Amendment, as did his predecessor in the session of 1914. When, at last, the Amendment is submitted to the voters of the State, suffragists need not fear results in Mason county.

NO CHANCE

It Seems For Dover to Get the Armor Plate Plant as It is Thought That Birmingham, Ala., Will Be the Choice of the Board.

A dispatch from Washington says: A special committee of naval experts to be named by Secretary of the Navy Daniels this week will visit Louisville, Middlesboro and Ashland for inspection of proposed sites for the \$11,000,000 armor plate plant.

It is expected that this committee will make its trip of inspection within a few weeks. Efforts will be made to have the committee visit Paducah and Fulton, as these Kentucky cities presented claims for the plant when the hearings were held by the General Advisory Board of the Navy September 23, their attractions having been described by Representative Alben W. Barkley.

The hottest fight for the plant made by any Kentucky city was waged by the Ashland boosters, a large number of women attending the hearing. Representative William J. Fields was their spokesman, and he since has renewed his representations in behalf of the Boyd county city.

Although Louisville has been mentioned as an applicant for the plant, no active fight in behalf of the Falls City has been made here. In the report of the General Board of the Navy recommending that the plant be placed at least 200 miles from the coasts or the Canadian and Mexican borders, Louisville was mentioned as one of the three most prominent cities in the field for the plant.

It is the general impression in Washington that the final selection will rest on Birmingham.

Dover's chances seem to have gone glimmering, but they certainly made a game fight to get the plant. Of course you never can tell what will happen but this seems to be rather final.
